

PUT SHOULDER TO THE WHEEL

Will Be Plea Pres-elect Harding Will Make in Inaugural

WILL NOT MEDDLE WITH BUSINESS

Harding Is Preparing Message to Be Delivered on March 4

St. Augustine, Fla., Feb. 14.—A plea that the nation forget the animosities and partisanship of the war period and put its shoulder unstintingly to the wheel of reconstruction is expected to form the keynote of Warren G. Harding's message to his fellow countrymen when he comes into the presidency.

Although the inaugural address still is far from complete, it was learned today that considerable work had been done towards its preparation and that the subjects it is to cover virtually had been selected. It is understood it will be brief and will attempt no detailed discussion of any of the problems awaiting solution. One feature is expected to be an appeal for confidence in the nation's business stability, linked with an assurance that during the next four years the administration will keep away from meddling methods in its relations with the business world.

Detailed statement of a taxation policy is to be reserved until Congress has been called into special session probably in April. It is believed Mr. Harding's address will touch briefly on the question of an international peace association and will tersely pledge the administration to use its best effort to secure a peace agreement compatible with American aspirations. There is expected also to be a word of friendship for Mexico and the rest of Latin-America.

For the present Mr. Harding is devoting little time to the actual wording of the document and most of the real work of putting his ideas into language probably will not be done until next week. He has a heavy appointment list during the next few days and by Saturday will have heard the advice of several prominent party leaders, including Charles Evans Hughes, generally understood to be the prospective secretary of state. Mr. Hughes is expected to reach St. Augustine Friday or Saturday.

Among those who had appointments today was Thomas W. Lamont, a partner in the Morgan banking house, who helped frame the financial sections of the treaty of Versailles. It was presumed that the conference related to various questions of international finance.

Slacker Slow All Around.

A diplomat told at a tea a story about a slacker.

"In the first year of the war," he said, "before conscription was adopted, a great hulking six-footer of 22 or 23 years rang a London woman's bell and tried to sell her some dahlias."

"The woman looked at his barrow of dahlias contemptuously. Then she said:

"I'm astonished to see a big, strapping fellow like you selling dahlias here. Why aren't you with the army?"

"The dahlia seller gave her a bewildered look.

"Why, ma'am," he said, "they don't want dahlias in the army, do they?"

\$1.50 A MONTH FOR Hood's Sarsaparilla

The best family medicine treatment that will purify the blood. Small dose after each meal. Economy and efficient. A month's supply in every bottle.

More Than This

It creates an appetite, aids digestion and assimilation and makes food taste good. A wonderful remedy for rheumatism, lumbago, catarrh—to build up after the flu, grip and fevers.

A word to the wise is sufficient. Take Hood's and only Hood's. Hood's Pills, small doses, a mild laxative; larger, an active cathartic.—Adv.

DIGGING PITFALLS FOR AMATEUR GOLFERS

Who Participate in Championship of U. S. Golf Association at St. Louis.

St. Louis, Feb. 14.—Diggers of pitfalls for the unwary golfer began work today on the picturesque links of the St. Louis Country club, which will be the scene of the amateur golf championship of the United States Golf Association, to add a few touches to the severe test already provided by the course for every shot from driver to putter.

The links, occupying 250 acres formerly known as the Farm of the Seven Hills, has the distinction of being the only course in the world that is entirely panoramic. A paved road winds around and through the property in such a way as to afford a view of the play of every hole from a car. Even the long 13th hole, which lies two fair ways from the road, tilts toward the highway so that the play on the greensward can be seen. The drive winds in such a way that one need not even turn around to keep pace with the golfers, but may follow them stroke by stroke from the first tee to the 18th green.

While Stewart Maiden, the club professional, has a bevy of men at work already, due to the open winter, the course has need of only a few small pits to make extra hazardous a couple of greens that had been well protected by natural life of the land. But these greens could be won by a vicious top cut pit shot that the work was undertaken.

Perhaps no golf links in the country has so much individuality in all 18 holes or possesses 18 holes with no two alike. An infinite variety of play is furnished. Even the drives are never the same if the player aims to take advantage of the topography to aid him in getting his second shot home by skill. A golfer who plays the course once can readily remember each hole for the rare sport it furnishes on account of some unique feature.

The links was laid out eight years ago under direction of C. B. McDonald, now a broker in New York, who with Douglas Tweedie, planned the first golf course west of New York many years ago. Nestled in the shrubbery surrounding the magnificent, mission style clubhouse, which overlooks the links of the seven hills, is a stone settee, inscribed to Mr. McDonald. Sitting on this bench, one can look over the rolling country to the forested foothills of the Ozark mountains, many miles away. A plaza along the south side of the clubhouse overlooks a polo field of generous dimensions, while some artistic landscape gardening has made a floral-decked garden at the grounds for some distance around the building.

Hills, valleys, forest, creeks, lagoons, even precipices and a touch of marshland compromise some of the native characteristics of the links. All these have been taken full advantage of in making the course an endless test of golfing skill, grueling but never tiresome.

OMAHA MAKES MUCH BUTTER.

More Than \$25,000,000 Worth Was Manufactured in 1920.

Omaha, Neb., Feb. 14.—More than \$25,000,000 worth of butter was manufactured in Omaha during 1920, according to an estimate by the Omaha chamber of commerce, members of which report that this city still retains its position as the chief city of this industry in the United States.

The figures on butter production as given by the chamber for recent years shows a steady increase since 1914, when the government census showed that the production here for that year was \$4,840,549 compared to the following for other cities:

St. Paul, \$3,229,203; Denver, \$2,028,690; Minneapolis, \$1,523,098; Chicago, \$1,347,098; Detroit, \$1,107,106; Cleveland, \$1,064,075; Seattle, \$908,738; Grand Rapids, \$747,184; Salt Lake City, \$505,429; Kansas City, \$32,384.

No government figures, chamber of commerce, officials say, have been available since 1914, but the chamber has estimated production since 1914 for Omaha as follows:

1915—\$7,860,805; 1916—\$10,789,144; 1917—\$11,077,925; 1918—\$20,387,182; 1919—\$22,655,210; 1920—\$25,023,530.

RUM FOR EMBALMING.

Bodies Placed in It are Thought to Be Perfectly Preserved.

Tuscaloosa, Ala., Feb. 14.—The olden days when rum was considered the very perfection of embalming fluids were brought forcibly to mind here recently with the falling into decay of the vault or mausoleum of Charles H. Patterson and his wife.

Patterson, a highly respected hotel proprietor, died in 1847 and his wife in 1867. Both bodies were enclosed in leaden caskets filled with rum and hermetically sealed before being placed in the vault, which was built on the top of the ground.

Although the ravages of the elements had obliterated the brick walls of the vault the caskets were found to be in a perfect state of preservation.

Embalmers say there is no doubt that the bodies of the Pattersons remain perfectly preserved.

The Really Terrible Thing.

Mrs. Gush—Too bad about your poor husband having his arm broken in your motor accident yesterday. So sorry.

Mrs. Swaggar—Oh, thank you, but that wasn't the worst; my new hat was simply ruined.—Boston Transcript.

SENATE TAKES UP TARIFF BILL

Advocates of Fordney Measure to Press for Action By Wednesday

TO CLEAR DECKS FOR APPROPRIATIONS

Smoot's Amendment Was First to Be Taken Up To-day

Washington, D. C., Feb. 14.—Pushed aside repeatedly during the past week in favor of appropriation measures, the Fordney emergency tariff bill to-day had regained its privileged status and was the first business before the Senate on reconvening.

Although proponents of the measure were prepared to press for final action by Wednesday, to clear the decks for resumption of work on appropriation bills, there had been no agreement or understanding regarding a final vote. The amendment offered by Senator Smoot, Republican, Utah, to the sugar schedule, which was under fire when debate on the tariff measure was suspended last week, was the starting point for debate to-day.

Senator Smoot has defended his amendment to the schedule as drawn by a finance committee on the ground that while it would add one cent a pound to the price of sugar, it would not be so burdensome to the consuming public as the original provision.

BRUTAL TREATMENT LAID TO SINN FEIN

Lieut. H. F. Forde, Who Has Just Recovered from Wounds, Gives First Authentic Account of Attack Near Macroom.

Ireland.

London, Feb. 14.—The first detailed authentic account of the killing of 17 auxiliary cadets of the Royal Irish Constabulary by a party of Sinn Feiners near Macroom, Ireland, on Nov. 28, has just been obtained from the sole survivor of the ambushed party, Lieutenants H. F. Forde. The lieutenant has recovered from his wounds in a London military hospital. All previous accounts of the affair have been based on deductions, in the absence of reports from eye witnesses.

Lieutenant Forde suffered a bullet wound in the head and was clubbed with the butt of a rifle and left for dead.

He says that the two motor cars carrying the cadets were attacked as they were passing between rock declivities on either side just as the leading car ran into a ditch which had been prepared for it. Many of those in the cars were wounded by the first fire from forces concealed behind huge rocks.

Those in the second car came up and fought until the last man fell wounded. Forde was lying wounded when he heard the order to cease fire. He adds: "There was a large number of attackers from both sides rushed into the road. They wore the uniform of British soldiers and handled us all very roughly, not excepting the dead. After knocking us about they called on us all to stand up."

"Two of the party were able to get to their feet and were immediately shot down at close range by the 'shiners.' One of the cadets near me groaned and turned over. One of the civilians plunged a bayonet into his back. I muttered something and he turned to me and, after cursing me, said it would be my turn next. I could see the others going through the clothing of the cadets who were being brutally treated. One of the civilians tried to pull a gold ring from my finger but failed. The next thing I remember was when one of them rolled me over roughly, to see, I suppose, whether I was dead."

"When I woke up it was pitch dark. The ambushers had retired to their positions and occasionally fired a few shots."

PITTSFIELD MAN TELLS INTERESTING STORY

Experience With Case of Rheumatism 25 Years Ago.

Geo. H. Carpenter runs a carriage and automobile painting shop at Pittsfield, Mass. He enjoys a reputation as a master of his trade and his work is highly regarded.

In a letter he wrote he said: "My mysterious Pain Ease . . . I used it 25 years ago and it cured my rheumatism."

A simple straightforward statement of fact from a substantial citizen. Think what he must have suffered and how grateful he felt after 25 years.

The Scotch Liniment known as "Mysterious Pain Ease" penetrates in such a way that it relieves inflammation and pain ceases to exist.

Many people in all walks of life have heartily endorsed it. Users of "Mysterious Pain Ease" recommend it for pains of rheumatism, neuralgia, sprains of all kinds, neuritis, lumbago, sciatica, burns, muscle cramps, stiff neck, chilblains, muscular colds where the shoulders, chest and back muscles are in pain, and pain arising anywhere from inflammation.

Pain is a matter of inflammation—if you can overcome the inflammation the pain goes.

A Scotch doctor got up the formula of this famous Scotch Liniment and it did stop pain so surely and quickly that people thought there must be something mysterious about it. They got so they asked for it by the name "mysterious" and so the name came to be "Mysterious Pain Ease"—named by grateful sufferers who had found the way to be rid of pain.

Mysterious Pain Ease is sold by most leading dealers. Any druggist can get it for you from his jobber.—Adv.

To Stop A Cough Quick! Use a Double Treatment

Take HAYES' HEALING HONEY to heal and soothe the sore and tender tissues and lining membranes inside the throat.

Apply GROVE'S O-PEN-TRATE SALVE to chest and throat to allay fever, reduce inflammation and relieve congestion.

The healing effect of HAYES' HEALING HONEY inside the throat combined with the action of GROVE'S O-PEN-TRATE SALVE through the pores of the skin soon opens the air passages, heals all inflammation and stops the cough.

Just ask your druggist for a bottle of HAYES' HEALING HONEY and you will find a box of GROVE'S O-PEN-TRATE SALVE enclosed therewith. The cost of the combined treatment is 35c. (Give it one trial.)

RIGHT TO MANUFACTURE "STIMULATING" LIQUORS

Is Sought By Bill Introduced in the South Dakota Legislature—Good Citizens to Be Given the Authority.

Pierre, S. D., Feb. 14.—Personal liberty, which includes a way whereby those who are temperate and good citizens as the term "good citizen" is defined, can manufacture, buy and sell liquors that are termed "stimulating," is the keynote of a bill introduced in the legislature here by Representative Fred C. Ohman, at the request of R. O. Richards of Mitchell, S. D.

The bill follows accurately the platform upon which Richards ran for governor in the primary last year.

The bill provides that "on and after the enactment of this law every person of legal age not convicted of crime or detained in state institutions shall again be accorded moral liberty in diet under law and order as provided in this act."

The bill defines a citizen as "a respected person who is moral and therefore entitled to respect any personal liberty in every way and entitled to enter the state, to travel, to service and to sell, buy and use stimulant by complying with the legal requirements of residents and naturalization and federal statutes."

The word stimulant is defined in the bill as "any pure vinous malt, brewed, fermented or distilled pure liquors containing the pure spirit of wine from fruits and seeds—not toxin, rectified, poisonous or impure, and not used in a drunkard's way for beverage purposes; but in a temperate way for stimulating purposes."

The term "intoxicating liquors" is defined in the bill as "any rectified, poisonous, impure, liquor, such as moonshine, poisonous home brew and immature wine."

The bill would declare immoral and prohibited, the saloon or any form or public place for the sale of intoxicating liquors or stimulants by the glass or individual drink for beverage, medicinal or stimulating purposes. The bill says, however, that "no person, active manager of any firm, business, club, association or corporation within this state shall manufacture, import or aid in importing, for sale, barter or trade, any spirituous or vinous liquors, except upon issuance of a 'municipal moral permit.'"

To obtain this permit, the bill provides for an application in writing to be published by the clerk or auditor in three issues of the daily or weekly newspaper with the largest circulation, giving the date and hour of the meeting of the commissioners to decide upon the application. At this time the public must have opportunity to object to indorse the granting of the application. If the application is granted a bond of \$5,000 must be filed for faithful performance and compliance with the act and with the federal statutes.

The issuance of the "municipal moral permit" shall be limited to regular registered pharmacists and to the citizen in charge as active manager of each retail and wholesale grocery concern, provided that all vinous and brew for "stimulant" purposes shall be sold in the original package and the proper food stamp attached.

The bill then provides that the auditor shall keep a book known as the municipal moral permit book where the list of permits shall be kept. It also provides that each permit holder shall keep a book which will record the names of all persons of which he is notified by the clerk of courts to have been deprived of their citizenship and they shall be entered as "moral delinquents."

All moral delinquents are not only deprived by the bill of obtaining a municipal moral permit but also deprived of voting and their citizenship is forfeited, which automatically prevents them from buying stimulants. The bill says: "When any person shall be found guilty by a jury of being immoral or creating immoral environment in sale of stimulant or of persistent wilful violation of any provision of this act, the clerk of courts in its discretion forfeit or suspend for a definite period the citizenship of the person so convicted."

The bill continues: "Any person, not a regularly licensed practicing physician who directly or indirectly, knowingly or wilfully sells or gives stimulants to a moral delinquent person who has lost his citizenship shall upon trial and conviction thereof forfeit his or her citizenship."

The word moral or morality is defined as the "essence of law by a standard of citizenship to mean individual responsibility in personal conduct, evidenced by the practice and support of temperance, good will, self respect, respect for the state and for justice of service."

For Colds, Grip or Influenza.

and as a Preventive, take GROVE'S Laxative BROMO QUININE Tablets. The gentler bears the signature of E. W. Grove. (Be sure you get BROMO.) 35c.—Adv.

OLD-TIME STAR OF DIAMOND

Bernard McLaughlin, Once a Major Leaguer, Died at Lowell.

WAS MEMBER OF PHILADELPHIAS

And Led Portland to the Championship of New England League

Lowell, Mass., Feb. 14.—Bernard McLaughlin, an old-time major league ball player, died here to-day. He was at one time a member of the Philadelphia Nationals. He was captain of the Portland (Me.) team of the New England league when Portland won the pennant in 1892.

NEBRASKA HENS NOT ON STRIKE.

Are Laying Eggs at Fast Rate in Nation-Wide Contest.

Lincoln, Neb., Feb. 14.—The hens in the nation-wide egg laying contest conducted by the Nebraska college of agriculture are refusing to join in the customary winter strike. Twenty-three of them laid 23 or more eggs during December; one laid 27 eggs and four laid 20 each. During November and December, the first two months of the present contest, one hen laid a total of 50 eggs, and ten laid 39 or more eggs each.

Among the twenty-three high layers during December were the following breeds: Seven White Leghorns, four White Wyandottes, four White Orpingtons, two White Rocks, two Barred Rocks, one Rhode Island Red and three Buff Orpingtons. The highest layer and the second highest layer were White Orpingtons.

Six hundred hens, representing breeders in nine states, are entered in the contest, the purpose of which is to encourage the breeding of better laying strains of poultry.
